Down The Street She Lived

She Lived Down The Street She Lived

She Lived Down The Street *She lived down the street / They shared the same school / Their lives intertwined like two balls of wool / And love was the word that never saw them rest / On this family tree they found themselves a nest / She grew up with him, right into their teens / He got his first job and entered her dreams / Their love was on fire each word on the flame / On this family tree they carved out one name / A lifetime of love in each others heart / She walked through his life along the same path / They married and moved into a new house / Their roots were put down and friends came around / This peaceful retreat became full of life / On their family tree a family sleeps tonight / A lifetime of love in each others heart / She walked through his life along the same path.*

Nothin' To Lose *I've got nothing to lose, I'm gonna give everything in my body and soul / I've got nothing to lose but I've got something that money can't buy / I found my vocation the second you became my motivation / I've got no time to lose worrying which road I'm on / Because whichever I choose / If you're with me I can't go wrong / Because I'm tired of taking bad advice / Everyday another sacrifice / I'm gonna try and put my faith in you / That's the right thing to do / I've got nothing to lose, I'm gonna give everything in my body and soul / I've got nothing to lose but I've got something that money can't buy / Now that I've made my connection there's nowhere else I'd rather go / If I don't lose my direction you know that love can only grow / I'm under no illusion no one gets a free ride / You never know till you try.*

It Ain't Over *It's not too late to bring about a change / It's not too late to learn from it all / By your mistakes, now it's time to look at yourself / See just what you are made of / You've got to try and see / One day soon you might fall right back on your feet / And then the devil you know is gonna have to let go / And free your soul again / There's nowhere to hide when love calls out your name / It ain't a question of pride / I need to hear you say, that / It ain't over 'til it's over / I can never quit 'til I get to the bottom line / It ain't over 'til it's over / And I still believe it's all gonna work out fine / You know and I know somewhere in your heart there's love / I know I ought to know you better / I'm a fool to myself / Before we pay the price listen now to my advice / You know the power of love / Is the one thing you need by your side, cos / It ain't over 'til it's over / I can never quit 'til I get to the bottom line / It ain't over 'til it's over / And I don't accept that I'm living on borrowed time.*

HappyToSeeYouAgain *I can't believe it's been so long / How have you been? / We've got so much to catch up on / I'm so happy to see you again / I've been meaning to call you / I don't know how many times / I've got your number embedded in the back of my mind / I looked you up in the phone book / But you've been moving around / I've been keeping my ear to the ground / I can't believe it's been so long / How have you been? / We've got so much to catch up on / I'm so happy to see you again / Are you still on the same number or have you changed? / We were just talking about you / I'm so happy to see you again / I was hoping to see you / Before you went away / I started making a list of all I wanted to say / I even wrote you a letter / But it's still there in my case / Now it's staring me right in the face / I can't believe it's been so long / How have you been? / We've got so much to catch up on / I'm so happy to see you again / Are you still on the same number or have you changed? / We were just talking about you / I'm so happy to see you again / Even now and then / I hope it's not too late / I don't know if you care / But I still think we were great.*

WhereDidIGoWrong? *Where did I go wrong? / It's a mystery to me / Where did I go wrong, and how could it be? / There's too much information coming from everywhere / But there's no one who can tell me / Why love can be so unfair / I tried to give you all a woman could need / But if it's not enough, for my peace of mind / Won't you tell me please / Where did I go wrong? / The more I think about it, it just don't make any sense / I feel like I'm standing here accused / Alone with no defence / Each accusation has me searching my mind / Putting the pieces together / I'm looking for clues / But they're so hard to find / Where did I go wrong?*

EmptySpace *It's what we don't say / That says so much about us / It's how we don't smile / That tells me all I need to know / Like the butterfly / That flies away from shadows / It's the only place / My heart wants to go / It's what I won't do / That says so much about me / It all seems too much / When there's not much to do / On a sunny day / I shine upon your darkness / In a funny way / It shines a light on you / Life's an empty space without you / I'm all over the place, that's what I find / Life's a long old road and I know / That if I pray for you you'll be back home sometime / It's what we won't risk that makes us / Lazy people / It's what we might miss / That makes us so intrigued / On a summer's day / I sit out in the evening / In a funny way / I know you're here with me.*

JustALittleLie *Is it my imagination or did a cloud just cross the sun? / A little breath of hesitation before you tell me I'm the one? / Oh I've got to keep pretending, every morning, noon and night / Although it seems you've walked all over my dreams / I'll make believe it's alright / Just a little lie / To try to see me through / Just a little lie / It changed from white to blue / It's sentimental but darlin' could you try / Just a little lie / I confess it's a fabrication / Empty lovin' brings no joy / Still I admit though, it's only counterfeit / You wind my heart up like a toy / Just a little lie / To try to see me through / Just a little lie / It changed from white to blue / It's sentimental but darlin' could you try / Just a little lie / Darling cross your fingers and I'll close my eyes / Just a little lie / Guess it's only a matter of time / Before I have to quit your game / Though I know all of your lines / Still I wanna hear them / Over and over and over again.*

Ain'tNoLove *Ain't no love sweeter than my baby's love / She's a cut above anyone I know / Ain't no kiss sweeter than my baby's kiss / That's what I miss when I go away / You might think she's got me in her pocket / That ain't the worst place I could be / All you fellas be honest with yourselves / I bet that you wish you were me / I've been all around the world / I've done all that I wanted to do / I've been busy saving up my love / To bring it on home to you / Ain't no love sweeter than my baby's love / You might think that she's no supermodel / That don't mean anything to me / Cos she's a woman from her hair down to her toes / That's there for anyone to see / Even though I don't ask for much / She gives me everything I need / That is why I don't need to roam / I'm right where I want be / Ain't no love sweeter than my baby's love.*
